

# Food chains

Our goal is to understand food chains in an ecosystem

Standards 52c, 52d, 52e, 52f, 56b, 56d, 57a, 57d, 57e

In this forest ecosystem there are many food chains

Find and list 2 food chains

1

2

ecosystem

How do the leaves turn into soil?

think and search question

What are decomposers?

right there question

what part do insects play in an ecosystem?

explain how food moves through an ecosystem.

these are both in my head questions
