

# classification

living/non-living and cells/the building blocks of life

living things are called \_\_\_\_\_  
non-living things are called \_\_\_\_\_

In order to be living an item must have all of these characteristics.

- 1
- 2
- 3
- 4
- 5
- 6

In my head question

living → non-living

living and non-living things are all made up of similar chemicals. Non-living things can even have some of the characteristics of living things, but they do not have them all.

tell about the basic shape of the:

- plant cell -
- animal cell -

In my head question

read pages 222 to 238 of your textbook NY science/grade 6 - chapter 8, section 1-3

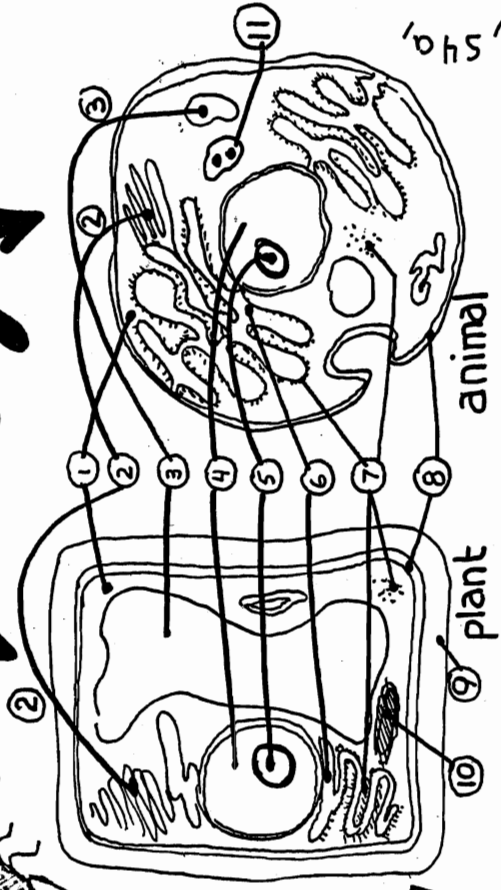

Sally

Our goal is to find the differences between living and non-living things. To begin to learn about cells.

living → plants → animals  
↓  
cells

- 1 \_\_\_\_\_
- 2 \_\_\_\_\_
- 3 \_\_\_\_\_
- 4 \_\_\_\_\_
- 5 \_\_\_\_\_
- 6 \_\_\_\_\_
- 7 \_\_\_\_\_
- 8 \_\_\_\_\_
- 9 \_\_\_\_\_
- 10 \_\_\_\_\_
- 11 \_\_\_\_\_

- 6 \_\_\_\_\_
- 7 \_\_\_\_\_
- 8 \_\_\_\_\_
- 9 \_\_\_\_\_
- 10 \_\_\_\_\_
- 11 \_\_\_\_\_

there are detailed pictures of cells on our web site
