

our goal is to get layers of water to stay unmixed on top of each other due to density

**weather watch**  
  
procedure -

investigation 5 - convection in water

step 1 -

step 4 -

results - data

making liquid layers

trial 1	trial 2	trial 3	trial 4	trial 5	

show layers using color

standard 6a, 6b, 6c
