

# Investigation 7- the water cycle

How does water get into the air?

## weather watch

I transpiration

- step 1- put a plastic bag over a plant
- step 2- tie bag to the pot with a rubber band
- step 3- observe the bag

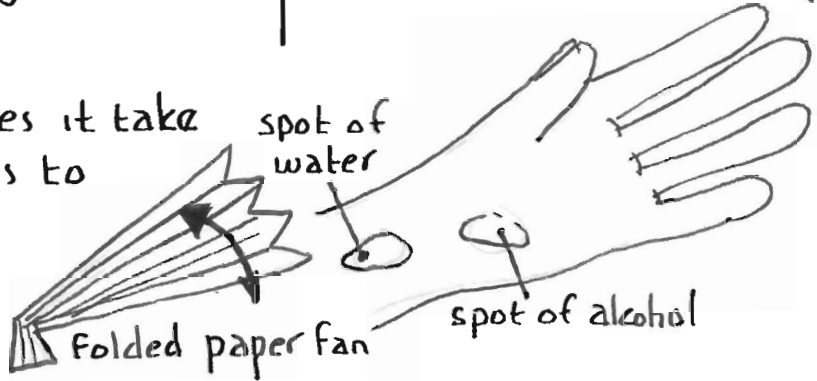

what happens to the plastic bag?

why?

this is transpiration

II evaporation

How long does it take for the liquids to evaporate?

	alcohol	H <sub>2</sub> O
trial 1		
trial 2		
trial 3		

### III cloud chamber

explain what will happen.

condensation
